

Boat Lift For Sale

Steel boat lift is constructed out of two pontoons each consisting of 4 chambers. Two chambers are for ballast/buoyancy and the other two for floating and submerging the lift.

Originally designed for a Formula 43PC, so it should be able to float most power boats up to 45'/17t. Comes with 1kW blower for purging tubes when floating lift.

Ideal for performing haul-outs in remote locations where no travel lift is available.

Lift is currently located in Cabilauan Island, northern Busuanga.

Asking price PHP 800,000 / negotiable
