

Farrier F22 Trimaran for Sale

The Farrier F22, designed by the legendary Ian Farrier and professionally constructed, is a fast lightweight trailer-able cruising boat. It is particularly suited to sailing in Philippines, due to its 1ft draft. The boat comes with a bracket to attach an outboard motor. The boat can be sailed right up to the beach.

Pictures included are from the F22 website where you can find all the information you need. <https://f-boat.com/f-22/> The actual boat is being fabricated and will be complete in December 2022.

For sale due to change in circumstances. PHP3,000,000.

Type: Foldable Trailer-able Sailing Trimaran
Configuration: Standard rig cruising version.
Location: Subic Bay
Registration: Not yet Registered
Condition: Brand new. Actually still in construction. Will be complete in December 2022
Length: 22ft / 7.1m
Beam: Unfolded 18ft / 5.52m – Folded 8ft / 2.6m
Sails: Main & jib..... 328sq.ft (30.5sq.m.)
Screacher.....262sq.ft. (24.34sq.m.) – boat is fitted for but the sail is not included
Draft: (board up)..... 12" (0.31m)
(board down)..... 4' 11" (1.51m)
Interior Headroom: 5' 4" (1.64m)
Main cabin width: 7' 2" (2.19m)
Height on trailer: 8' 8" (2.64m)

Material: NPG Gelcoat – the most water resistant gelcoat available, and backed with vinylester/epoxy resin under waterline, and isophthalic polyesters elsewhere
Foam Core sandwich construction throughout, with double bias or bi-axial glass fabrics. Carbon fiber is used selectively in highly stressed areas, while main hull keel is reinforced with Kevlar, both sides of core. This helps stiffen the hull for rig loads, plus is an excellent barrier against hull penetration should boat go on rocks. The gold colored Kevlar can be seen in below photo.

Other Inclusions:

- Radio: With AIS and DSC
- Tiller Pilot: Ray marine
- Water pump and transom wash
- Cabin fan x 2
- Mounted Compass
- Space for additional house battery

Not included: outboard, batteries, gennaker sail, mooring lines, fenders, safety equipment etc.
